

A BEGINNER_ FRIENDLY INTRODUCTION

COMPETITIVE PROGRAMMING

Think. Code. Solve.

AT FIRST , WHO ARE WE?

ROUA BEN FRAJ

- CHAIR OF IEEE CS ENICARTHAGE SBC
- 2 YEAR COMPUTER SCIENCE ENGINEERING STUDENT

MOHAMED AYOUB DABBABI

- VICE CHAIR OF IEEE CS ENICARTHAGE SBC
- 2 YEAR COMPUTER SCIENCE ENGINEERING STUDENT

BEFORE WE START... 🙄

When you hear Competitive Programming, what do you think about?

SO WHAT IS CP ?

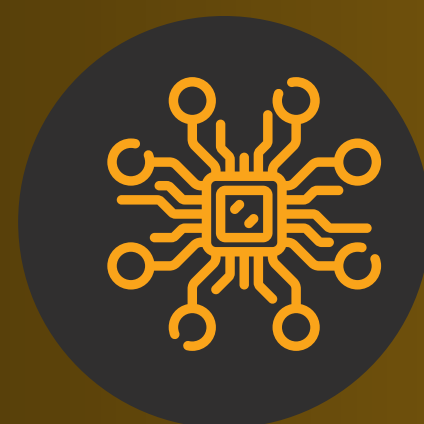

CP = Solving Problems Using Code , efficiently.

Problem

Think

Algorithm

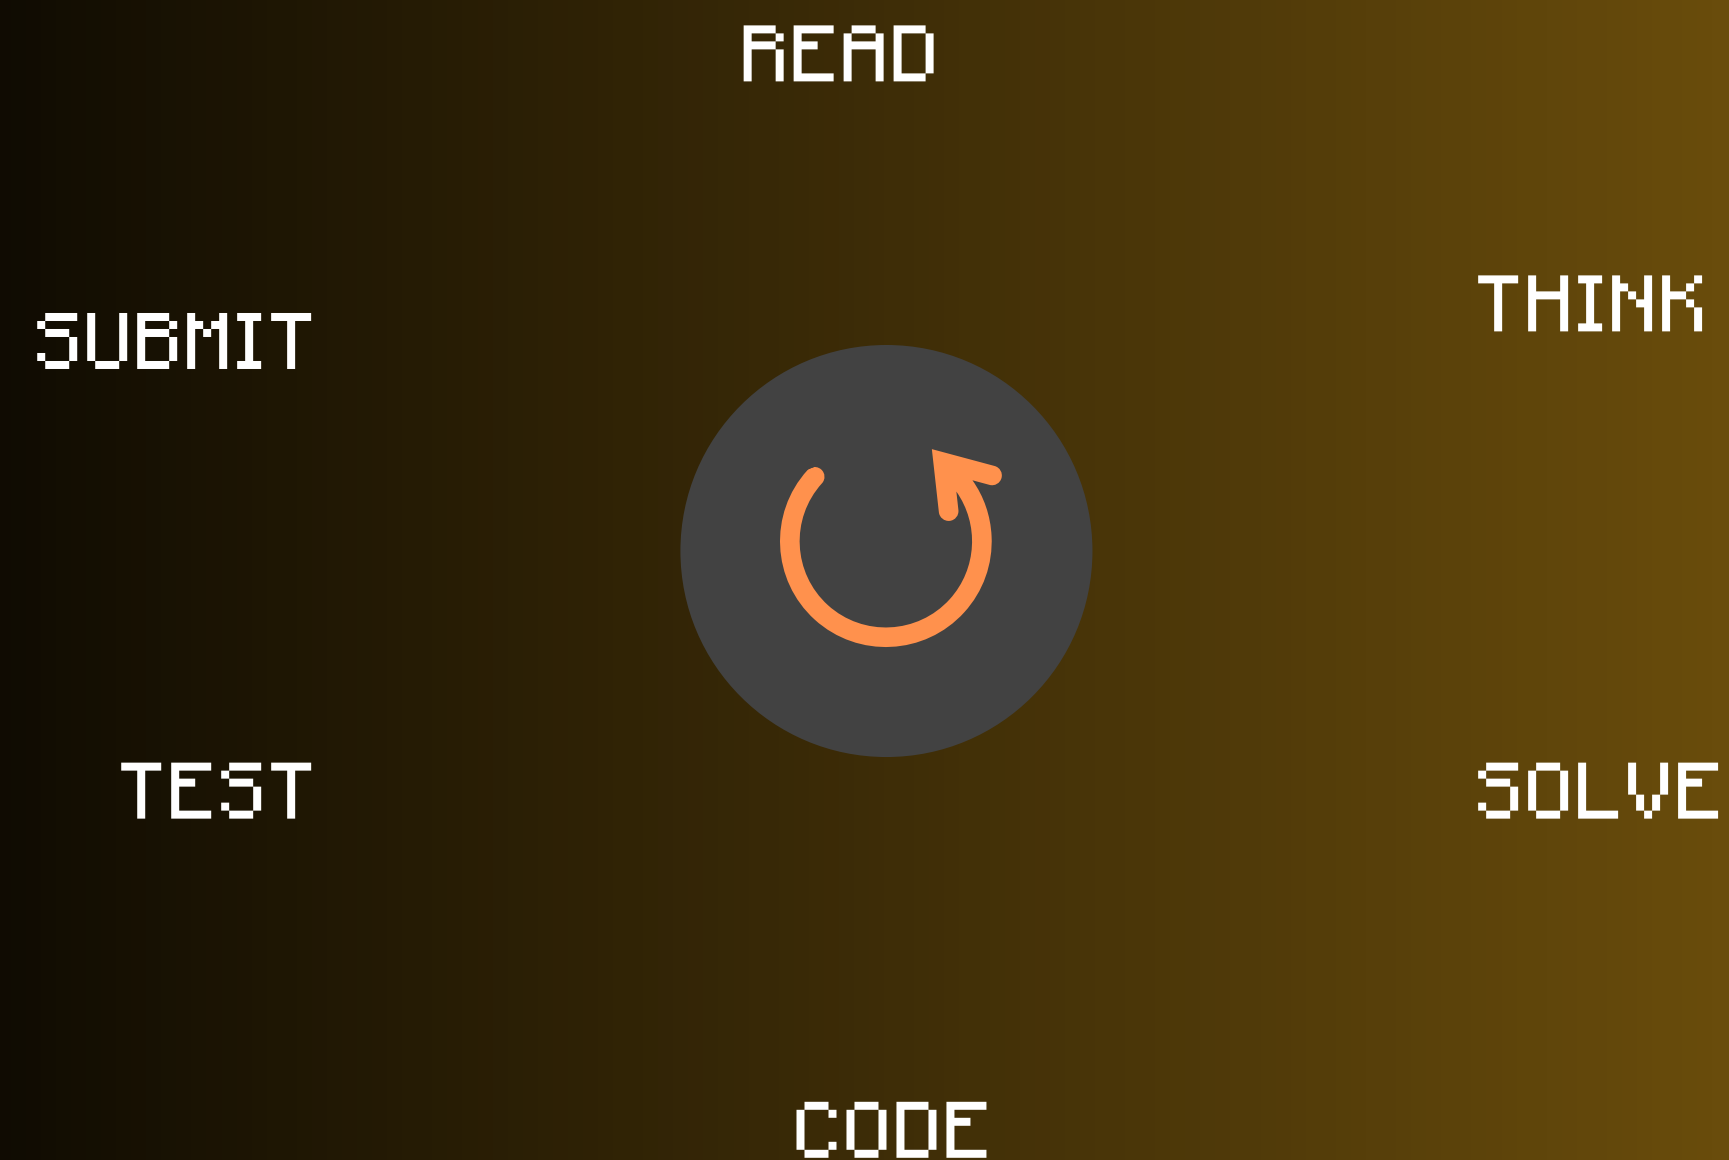

Code

Solve

SO WHAT DO WE ACTUALLY DO IN CP?

The CP Loop

Repeat.
Repeat.
Repeat.

LET'S SOLVE TOGETHER !

One hot summer day Pete and his friend Billy decided to buy a watermelon. They chose the biggest and the ripest one, in their opinion. After that the watermelon was weighed, and the scales showed w kilos. They rushed home, dying of thirst, and decided to divide the berry, however they faced a hard problem.

Pete and Billy are great fans of even numbers, that's why they want to divide the watermelon in such a way that each of the two parts weighs even number of kilos, at the same time it is not obligatory that the parts are equal. The boys are extremely tired and want to start their meal as soon as possible, that's why you should help them and find out, if they can divide the watermelon in the way they want. For sure, each of them should get a part of positive weight.

Input

The first (and the only) input line contains integer number w ($1 \leq w \leq 100$) — the weight of the watermelon bought by the boys.

Output

Print YES, if the boys can divide the watermelon into two parts, each of them weighing even number of kilos; and NO in the opposite case.

Examples

input	Copy
8	
output	Copy
YES	

Note

For example, the boys can divide the watermelon into two parts of 2 and 6 kilos respectively (another variant — two parts of 4 and 4 kilos).

Are you ready? 🙄

TEAMS

ONE CHALLENGE

How!

How Does IEEE Xtreme Scoring Work?

01

Each task has
multiple test
cases

02

More test
cases solved
→ Higher
score

03

30 pts
→ solving all
test cases

04

Up to +70 pts
→ depending on
task difficulty

05

Ranking =
Total Score

06

Time = Tie-
breaker
